

# Prismatic Compass

## Prismatic Compass

We provide our clients with the **Prismatic Compass** which provides extremely accurate readings for navigational purposes. The compass comprises a brass or aluminum metal circular box, having a diameter of 75/100 mm. A highly magnetized needle on a hard steel pointed pivot is balanced at the centre of the box. An Aluminum circle consists of a needle, which is graduated to 30 min. (0. 50) with engraved inverted figures. The graduations are magnified by sliding the prism fitted with colored glasses having a sighting slit at the top.

The **Prismatic Compass** can be customized in conformance with the client requirements.

## Specifications
